

PRINCIPAL'S SURGERY RE-OPENS TUESDAY 6TH OCTOBER 3.45 – 4.45 p.m.

To follow every first Tuesday of the month

Good communication with you is really important to us at Kings as we want to offer a Gold Standard in all that we do. That means knowing what you think about how we are doing. We do listen and do make changes and we believe strongly that putting **people first** will help us to continue to improve.

As Principal it is really important to me when I am planning or making decisions to know what you think about what we are doing and to hear your views about **what is going well (WW) and what would be even better if (EBI)**.

My surgery aims to give you an opportunity to talk to me outside of the College day about the things that matter to you about College life. Working together I believe that we can make a positive difference to the lives of our children and to enrich their lives through learning.

In case you haven't met me yet I am the one on the left! Tracy Ward (Married name) Principal and Nick Phillips, as Vice Principal, will in my unavoidable absence take the surgery.

At Surgery you can

- ✚ Contribute to the College development plan
- ✚ Air your views about what we are doing
- ✚ Bring along your ideas for improvement
- ✚ Make enquiries about how to get more involved in College Life
- ✚ Talk about Kings College & Surrey's Vision for Education
- ✚ Offer a business link or community partnership
- ✚ Tell us what we are doing well (WW) and even better if (EBI)
- ✚ Have a voice in the future of your College

For an appointment please contact Nina Sparks PA to the Principal
on 01483 458957
